DICKSON®

the art of weaving by Dickson®

Dickson : a history of expertise

Building on more than 200 years of expertise, Dickson® is an established player on the woven fabric market.

Thanks to the know-how of its employees, Dickson continues to be the benchmark for technical textiles. Having made innovation a keystone of its philosophy, it always adapts to the latest market trends.

Dickson is recognised the world over for the quality of its canvases, which are composed of millions of interwoven and intertwined threads.

GRAPHiC DESiGN SELECTION

“

The 32 fabrics in the Graphic Design Selection provide an insight into the skill and expertise offered by Dickson: its in-house design team monitors the latest trends to create these graphic fabrics in pastel and powdered hues.

Its Jacquard, Brush and Constellation fabrics reflect nearly 200 years of yarn and weaving proficiency.

Much more than patterns, they bear witness both to its manual and machine work, and weaving effects developed especially to appeal to our senses.

In this selection, bold stripes take on a less strident tone and give way to sketched-effect stripes that could almost have been drawn by hand, revealing the character of the many millions of fibres that make up the fabrics.”

COLOR DESIGN SELECTION

“

The 33 fabrics in the Color Design Selection draw on every aspect of Dickson's long-standing expertise and production equipment. Their lively tones are harmonised with material effects in bright reds, sunny yellows and natural greens.

Materials are worked to reveal new colours through transparency with changing solids and through needed visual effects.

Understated stripes in different monochromes alternating with white battening open up opportunities to express your creativity with these resolutely colourful fabrics.”

PROFES- SIONAL

“

The professional collections by Dickson® are designed to meet specific sun protection needs. Dickson has developed two fabrics with unique properties.

Sunvision is an openwork canvas with a textile feel that has two uses: indoors, on a Japanese panel, for example, and outdoors, on roller or zippered lambrequins for the sides of pergolas.

With Orchestra Max, Dickson provides an effective solution for professionals and private customers whose fabric is expected to be exposed to climatic variations and pollution. ”

Dickson quality Guarantee

Colours that last

The solution-dyed yarn used to produce our fabrics offers long-lasting resistance to UV rays and weather conditions. Even when exposed to strong sunlight, they retain their dazzling colours... for a very long time.

10-year fabric warranty

Its high-performance fibres, treatments and weaving processes allow Dickson to guarantee some of its fabrics for up to 10 years.

French made

Building on its unique expertise, Dickson produces all of its fabrics in Wasquehal in northern France (59).

Visual and thermal comfort

Dickson® fabric reduces glare and heat by up to 95% to eliminate the greenhouse effect, keep your interiors feeling fresh and, depending on the colour, block 90% to 100% of UV rays.

Easy to maintain

CLEANGARD® water- and dirt-resistant finish ensures each of our fabrics is highly resistant to stains, grease and water.
Low maintenance guaranteed!

Textiles that protect people and the planet

Awarded the OEKO-TEX label (class II, products in direct contact with the skin), Dickson fabrics are produced without hazardous substances and do not pose a threat to health, the skin or the environment.

Life runs to its natural rhythm under a Dickson® awning. Opening up your home to the outdoors, it transforms your terrace into a true living space, ensuring nothing interrupts those special moments, whatever the time of day.

Dickson® awnings accent your exterior design and add distinction to your façade and brings perfection to the layout of your patio.
